About Community Blood Services

Founded in 1953, Community Blood Services is a not-for-profit organization devoted to serving the community's blood transfusion needs. We provide blood and platelets for patients in dozens of hospitals in New Jersey and New York.

Blood and bone marrow donor registration drives are held regularly with community groups, corporations and schools throughout the region to help meet our hospitals' needs.

Our lifesaving services include our blood collection services; The New Jersey Public Cord Blood Bank, the state's only not-for-profit public cord blood bank; and The HLA Registry, which recruits volunteer marrow donors for patients who need transplants and is one of the largest members of the National Marrow Donor Program (NMDP).

Life Shared. Life Saved.
