## About Community Blood Services

Founded in 1953, **Community Blood Services** is a not-for-profit organization devoted to serving the community's blood transfusion needs. We provide blood, platelets and plasma for patients in more than 20 hospitals in New Jersey and New York.

Blood and bone marrow donor registration drives are held regularly with community groups, corporations and schools throughout the region to help meet our hospitals' needs.

Our lifesaving services include our blood collection services, The New Jersey Cord Blood Bank, the state's only public cord blood bank; the Elie Katz Umbilical Cord Blood Program; Safety Cord USA; and The HLA Registry, which recruits volunteer marrow donors for patients who need transplants and is one of the largest members of the National Marrow Donor Program (NMDP).
